CHOOSE
DRAMA

Welcome to the Drama Department

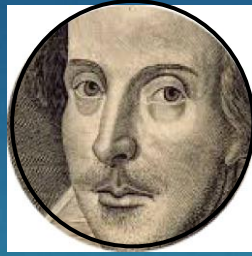

The Drama department focus on a multitude of skills.

Not only do we want students to develop as performers but as young individuals. They are given the opportunities to improve on social skills, communication, team-work, time management and focus/concentration.

Drama will help students develop confidence that will be of great benefit in not only other subject areas but also within the outside community.

We want our students to commit and give 100% each lesson.
