- Identification of fraudulent e-mails
 - Malware/Spyware/Adware
 - Sexting
 - Staying safe on social media
- Health and safety when using Computers

S = SAFE

Keep yourself safe – **DON'T** give out any personal information.

Keep your full name, address, mobile number, email address, school name and friends' full names secret. Otherwise people can use this information to contact you.

Your passwords and nicknames should be secret.

If you have to give an online screen name or nickname, never use your real name, and try not to use things that are easy to guess like your parents name or a pet's name.

M = MEETING

NEVER meet up with an online friend.

Never arrange to meet an online friend, no matter how well you think you know the other person or however curious you may be.

If you know that somebody is thinking about doing this then tell an adult because it could be **VERY DANGEROUS** for them.

A = ACCEPTING

ACCEPTING emails can be dangerous, they can contain viruses that will harm your computer or really nasty messages that could upset you.

Don't open emails from people you don't know.

If they have your email address some websites will send you lots of junk emails trying to sell you things, or messages that make you feel uncomfortable. This is called spamming.

The best thing to do is to just delete all messages from people and companies that you don't know.

R = RELIABLE?

Beware ! People on the internet might not be who they say they are.

Someone online maybe lying about who they are, and information you find on the Internet may not be reliable.

Chats and message boards are fun, but they can also be dangerous because you don't know who you're talking to.

Remember **stranger danger** - you should use the same rules when you're online.

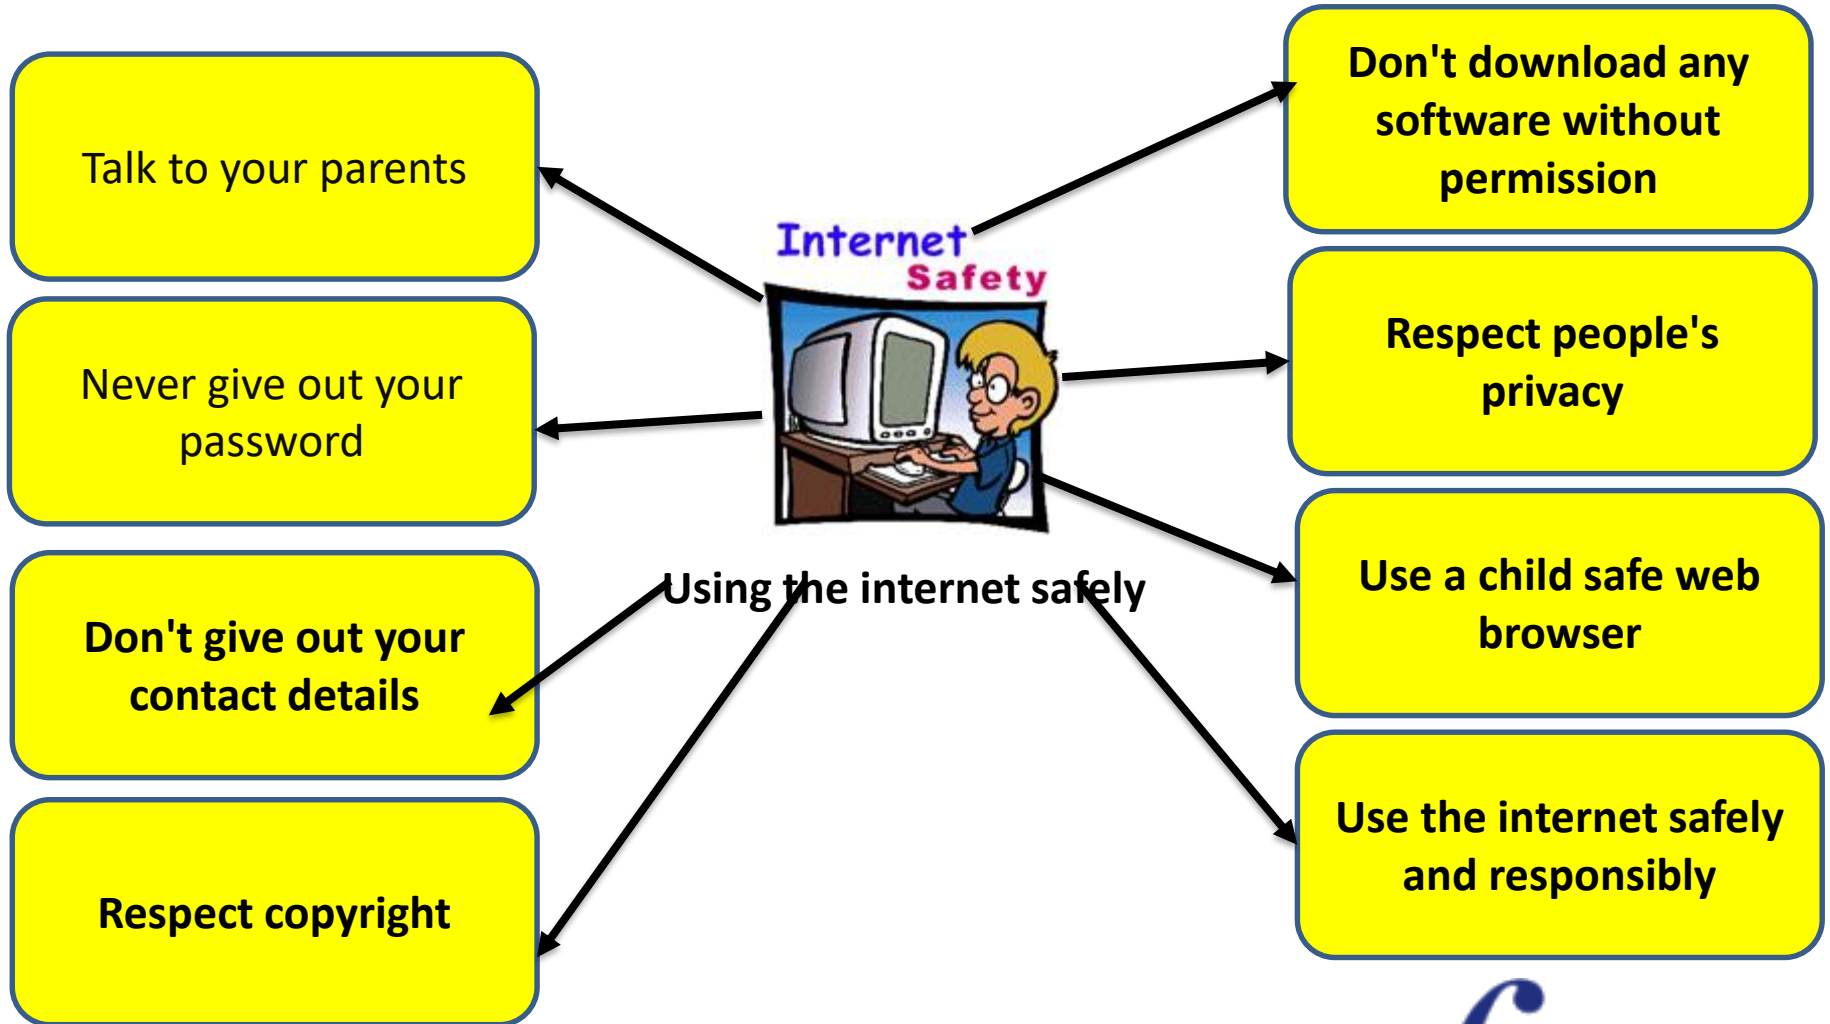

T = TELL

TELL – Tell an adult if you are worried about anything you have found or seen or heard on the internet.

If you are chatting to someone on something like MSN then the best thing to do if someone upsets you is to log off and tell an adult.

Using Internet Safely

Staying safe in chatrooms

Talk to your parents

Don't meet up in real life on your own

Don't give out your contact details

Stay in the public chatroom

Don't send your photo to anyone

Don't open attachments from people you don't know

Dealing with Cyber bullying
